EMPLOYMENT EXPERIENCE

Wegmans Food Markets - Rochester, New York

May 2025 - December 2025

Desktop Computing Technician Co-op

- Completed 250+ Level III IT tickets for hardware. Imaged laptops and tablets to be sent to stores, and managed devices with Active Directory and Microsoft System Center Configuration Manager while working within a CyberArk-managed environment.
- Helped rewrite a Python GUI to allow users to easily view relevant PC info to give Help Desk during calls.
- Traveled to 10+ store locations along the East Coast to replace 100+ outdated computers.
- Wrote official documentation on how to configure Samsung phones to be sent to stores. Configured 200+ phones.

RIT Tech Crew / Sports Network - Rochester, New York

September 2023 – Present

Junior Technician/Trainer/Shop Technician/A2 Broadcast Engineer

- Provide, transport, and operate sound and lighting equipment for events throughout campus.
- Manage live broadcast audio systems for 15+ large-scale graduation ceremonies.
- Train underclassmen on how to use Tech Crew's equipment and the theory needed to best operate it.
- Inventory and repair RIT Tech Crew's vast \$2,000,000+ inventory of equipment.
- Assist Broadcast Engineers with mixing audio and producing video for RIT's Division I hockey games.

RIT Year One Programs - Rochester, New York

August 2024 – December 2024

Peer Facilitator

- Guide discussions about community, diversity, and inclusivity.
- Lead two 20-student sections through 'Plan-Do-Reflect' cycles that engage with the RIT community.
- Meet one-on-one with students for coaching sessions to provide customized advice.

Town of Peru Youth Commission – Peru, New York

July 2023 – July 2024

Tennis Camp Head Coach

- Plan and coach multiple week-long tennis camps for children ages 5-12.
- Manage a team of assistant coaches and divide children into groups accordingly.
- Adapt to children's requests and invent new games within minutes.

PROJECTS/HOBBIES

- **Enterprise Infrastructure Homelab** (*Personal Project*)
 - Build and maintain a virtualized enterprise homelab using a Rocky Linux VM on VMware.
 - Configure Docker containers, virtual networking, and Linux-based systems.
 - Continuously expand the lab and document infrastructure configurations and troubleshooting solutions.
- **Application Performance Monitoring Tool** (*Class Project*)
 - Developed a Bash script using ps, ifstat, iostat, and df to monitor CPU, memory, disk I/O, and bandwidth on a CentOS VM.
 - Automated logging to a CSV file, and created visual plots to analyze trends. Collaborated with a team of three students.
- **Music Instruments and Live Performing** (*Personal Hobby*)
 - Played in a local rock cover band with three generations of family members in my hometown.
 - Started a college band. Performed in Performing Arts showcase, Open House, and other university events.
